4-H Club Day

4-H Club Day activities are an important phase of local 4-H programming and should be something that every 4-H member tries. 4-H Club Day provides additional opportunities for 4-H members to further develop their skills, self-confidence, and personal developments as they learn and have fun with others in their club, county or district. 4-H Club Day objectives include the following:

1. To demonstrate the value of the 4-H Youth Development program through public presentation and evaluation of 4-H'ers showcasing:
 - a. Public Presentations
 - b. Parliamentary Procedures
 - c. Performing Arts
2. Give 4-H'ers an opportunity to learn skills and gain confidence in their abilities to exercise parliamentary procedures, speak effectively and give creative performances.
3. To provide opportunity for fellowship and wider acquaintance among 4-H'ers.
4. To exchange information regarding 4-H project work to others.
5. To present a favorable image to the public and to promote 4-H.

Participation in 4-H Club Day is generally assumed to be open to current actively enrolled 4-H members (State Program fee paid) of the Meadowlark Extension District. Participation in individual events is open ONLY to actively enrolled 4-H members. Group activities must be comprised of at least 75% of active 4-H members. Group projects may have a mixture of youth in 4-H clubs.

Details and sign-up process are found in the local office pages and/or have been communicated in other ways, so please review and let us know what questions or concerns you have. General Club Day resources can be found at: <https://www.meadowlark.k-state.edu/docs/4h/resources/4H-Club-Day-Guide-Book.pdf>.

Any 4-H member wishing to participate in premium auctions at county fair, need to annually complete the premium sale requirement form. The process encourages year-round 4-H engagement and involvement. FFA members (in counties where eligible for fairs) have a corresponding set of requirements. Review the form at https://www.meadowlark.k-state.edu/docs/4h/fair-forms-for-all-offices/PREMIUM_SALE_REQUIREMENTS.pdf. Many of these requirements can be met by engaging with your local club all year and participation in local/area/state events.

2026 Livestock County Fair Management Clinic

Hosted via Zoom — April 13 & 16 | 7:00–9:00 PM

This clinic is designed for county fair board members, Extension agents, and volunteers involved in livestock fair management and leadership. This professional development opportunity provides a forum for open communication among individuals working with livestock at their county fairs. While some topics may apply broadly to county fair operations, this program specifically is on the livestock perspective. K-State faculty and staff, fair board members, Extension agents, and guest speakers across Kansas.

The clinic will be held over two evenings with different topics each night. This year's clinic will include breakout roundtable discussions. Sessions will be recorded.

If you are interested in participating, contact your local Extension office to register.

State Fair Animal Exhibition

Exhibiting an animal beyond the 4-H division at a local county fair means that ownership and identification must meet the requirements outlined by the K-State Youth Livestock Program, Kansas State Fair, Kansas Junior Livestock Show and all other show governing bodies. The 4-H member is responsible for understanding the deadlines and expectations involved. It is strongly recommended to contact the extension office well in advance of **May 1**, if you are considering showing an animal at the Kansas State Fair, so expectations and processes can be reviewed and met.

Citizenship & Leadership

Citizenship means helping out in your community and serving others without compensation. Leadership involves major responsibilities, including guiding, planning, and carrying out activities to help a group achieve its goals.

Wondering what you can do for citizenship and leadership activities in your projects? Check out this guide to community service opportunities that will give you all sorts of ideas: https://www.meadowlark.k-state.edu/docs/4h/resources/4-H_Project_Related_Community_Service_Opportunities.pdf.

Project Spotlight

Meat Goat Project

The 4-H meat goat project is part of the animal science education program. Youth will learn basic principles of animal science by owning, caring for, and keeping records on one or more head of meat goat. They will demonstrate knowledge for feeding, breeding, and managing meat goats. Youth will also learn valuable scientific research and its influence on animals and the meat industry. Finally, youth will practice the 4-H life skills of decision-making, communicating with others, leading self and others, planning and organizing, and learning to learn.

Starting Out *Beginner*

- Know your meat goat breeds and select your animal.
- Understand the different types of feed and quantity to feed.
- Recognize a healthy animal.
- Train your goat to lead and stand.
- Learn to groom and show your animal at county shows.
- Identify parts of the animal and cuts of meat.

Learning More *Intermediate*

- Learn appropriate handling techniques and housing for meat goats.
- Understand the digestive system of a ruminant and identify common health issues.
- Understand medication uses, storage, proper administration and how it relates to food safety.
- Develop judging and meat-grading skills.
- Make ethical decisions.

Expanding Horizons *Advanced*

- Become familiar with different meat goat industries.
- Balance a meat goat ration and understand feed quality.
- Learn about breeding and reproduction techniques.
- Identify and learn to treat and prevent common diseases.
- Evaluate meat goat carcasses and market your product.

Why 4-H ???

*(Noting the **IMPACT** of the 4-H Program in the lives of young people, in their own words.)*

“When there is a challenge in a family or a community, I can use this 4-H experience towards finding a solution that works.”

New Families

Don't hesitate to contact a club leader or our office if you have any questions about upcoming events, project records, or any 4-H projects. Stay involved and attend as many events as possible. Please call your local extension office with questions.

911 Address Signs

911 reflective signs help emergency services quickly locate addresses. Made of durable, fade-resistant aluminum with reflective material on both sides, they are visible day or night and can be mounted vertically or horizontally.

Signs are available at your local Extension Office for \$15 each. Proceeds benefit the 4-H program.

Sharing the Load

Have you ever felt the pressure of 4-H overload? Too many meetings, too many forms, too many phone calls, and no time for your own children or hobbies? You might be experiencing 4-H overload. One strategy to help is delegating! You don't have to be Ms. or Mr. Super Organizational Leader. Try sharing the responsibilities with the Parents' Committee - other 4-H parents are usually happy to help if asked. You may need to explain the responsibilities, and then let them do things their way. Be sure to appreciate their efforts, even if you have a different way to do it.

Here are some quick suggestions:

- **New Family Coordinator:**
 - Welcome visitors.
 - Explain 4-H to new and visiting families.
 - Distribute 4-H informational materials.
 - Share the visitor's names and addresses with Kate at the Extension Office.
- **Project Leader Coordinator:**
 - Organize project leaders.
 - Explain and train new project leaders.
 - Gather needed 4-H materials and distribute to members.
- **Record and Awards Trainer:**
 - Stay informed and up-to-date of Achievement Awards and requirements for awards.
 - Train members on how to complete 4-H records and Project Award Applications.
- **Demonstration Trainers:**
 - Instruct members and adults on fundamentals of presenting demonstrations and talks.
 - Promote 4-H Club Day.
 - Assist families with submitting 4-H Club Day entries online.
 - Encourage participation in demonstrations and talks and provide guidance for youth.
