Leadership
Meat Goats
Performing Arts
Pets
Photography
Poultry
Rabbits
Reading Adventures
Robotics
Self-Determined
Sewing & Textile Design
Shopping in Style
Shooting Sports
Sheep
Small Engines
Swine
Uncrewed Aircraft Systems
Veterinary Science
Visual Arts
Wildlife & Sportfishing
Woodworking

JOIN 4-H

What is 4-H?

4-H is a national youth development program that creates confident, capable, and responsible individuals who are Beyond Ready for their future. Through program areas like agriculture, science, leadership, and community service, 4-H teaches practical skills while encouraging curiosity and personal growth.

Who can be in 4-H?

Youth ages 7 to 18 on January 1 of the current 4-H year are invited to join. And, it's not just for country kids! Individuals from every background benefit from 4-H programming.

Cloverbuds is a free, educational program designed as a precursor to the 4-H program. Youth ages 5 to 6 on January 1 of the current 4-H year may participate.

Why should my family join?

4-H equips youth with essential life skills and delivers unforgettable experiences and lasting friendships along the way.

Members develop leadership, communication, and problem-solving skills in a fun, supportive environment. Whether raising animals, giving presentations, or leading service projects, 4-H members learn by doing and gain confidence. Opportunities abound for civic engagement, scholarships, and, eventually, careers.

How can I join?

The 4-H year begins October 1, as does enrollment through 4-H Online at www.v2.4honline.com. New families may join at any time up to May 1 while returning families should complete re-enrollment by November 1.

Utilize your local Oskaloosa K-State Extension office or your chosen club's leadership as a resource when enrolling.

What projects does 4-H offer?

Project-based learning is central to the 4-H concept. Guided by positive mentors, each of the 47 projects offered through Kansas 4-H encourages youth to explore their interests and discover potential careers. More importantly, each project develops goal-setting, problem-solving, and collaboration skills to ensure 4-H members are Beyond Ready to meet life's challenges.

**Beyond
Ready**

These are the program's core values that guide everything members do.

Head Make sound decisions, achieve goals, develop practical skills

Heart Act with integrity and accountability

Hands Commit to serving others in your community

Health Actively care for your mind and body

Jefferson County 4-H Clubs

Clubs meet monthly to conduct business and plan group activities. Each participates in community service and special events during the year to meet club-established goals.
