www.meadowlark.ksu.edu

Kansas State is committed to making its services, activities, and programs accessible to all participants. If you have special requirements due to physical, vision, or hearing disability, please contact the Meadowlark Extension District. K-State Research and Extension is an equal opportunity provider employer.
Dear Educators,

We are very excited to share our 4-H school enrichment programs in your classroom. Our supplemental activities and kits will provide hands on learning for your students and help you meet state academic standards and wellness policy requirements. All of our classes/kits will be scheduled on a first come, first serve basis. Limited dates may be available for some programs, so please make your selections early. If you have any questions please contact the Meadowlark Extension Holton Office.

Cara Robinson, 4-H Program Manager

**Butterflies**

**Audience:** Grades Pre-K-5  
**Cost:** $7.00

**Delivery Method:** The lesson will be presented in the classroom with butterfly larvae.  
**Objectives:** Students will learn what insects are and how they fit into the world of living things. Students will study the life cycle of butterflies from larvae to adults.  
**State Standard Met:** Life Science by observing and learning the life cycle of a butterfly.  
**Program Includes:** Butterfly cage, 3 Painted Lady Butterfly Larvae & Teacher Guide  
**Teacher Provides:** Safe environment & careful daily observation  
**Offered:** Fall & Spring

**Chick Embryology**

**Audience:** Grades K-5  
**Cost $5.00**

**Delivery Method:** The lesson will be presented in the classroom with eggs and incubator.  
**Objectives:** Chick Embryology helps youth better understand the process of embryo development. This program will give them a better understanding of the life cycle of poultry.  
**State Standard Met:** Life Science by observing and learning the life cycle of a chick.  
**Program Includes:** Eggs, Incubator and Handouts  
**Teacher Provides:** Safe environment, careful daily observation & feed when chicks start to hatch.  
**Offered:** Fall & Spring
Glo-Germ Hand Washing Activity

**Audience:** Grades Pre-K-5  
**Cost:** None

**Delivery Method:** Extension staff can present in classroom or can be delivered to you or your school office.  
**Objective:** Students will use a UV fluorescent potion that will glow under a black light to show how clean your hands are before and after being washed. With the H1N1 flu being spread, hand washing is more important than ever.  
**Program Includes:** Fluorescent potion and black light  
**Teacher Provides:** Safe environment and soap and water to wash hands.  
**Offered:** September - May

Wheat Science

**Audience:** Grades K-5  
**Cost:** $5.00

**Delivery Method:** Extension Staff will deliver a kit to you or your school office.  
**Objective:** Students will learn about wheat in Kansas from field to table.  
**Program Includes:** Bread in a Bag kit, measuring utensils needed, ingredients as needed, bread pans and curriculum.  
**Teacher Provides:** Safe environment, place to bake bread and observations.  
**Offered:** September - May

Acres of Adventures

**Audience:** Grades K-5  
**Cost:** None

**Delivery Method:** Extension Staff will deliver the material to your school office.  
**Objective:** Students will learn about agriculture, food, physics, horticulture, history & entomology.  
**Program Includes:** 80 hands on science lessons. Lesson books “All About Agriculture” - Fast Food Agriculture, Mystery Agriculture & Plant Detectives. “Agriculture Gone Wild” - Farm Physics, Frontier Living & Insect Invasion  
**Teacher Provides:** Safe environment, any materials needed.  
**Offered:** September - May
Junior Master Gardner

**Audience:** Grades 1-5  
**Cost:** None

Chapter 1: Plant Growth and Development  
Chapter 2: Soils and Water  
Chapter 3: Ecology and Environmental Horticulture  
Chapter 4: Insects and Diseases  
Chapter 5: Landscape Horticulture  
Chapter 6: Fruits and Nuts  
Chapter 7: Vegetables and Herbs  
Chapter 8: Life Skills and career Exploration

The Junior Master Gardener program introduces young gardeners to the art and science of gardening, and helps them develop leadership and life skills to become good citizens within their communities, schools and families.

**Delivery Method:** Extension staff will deliver to you or your school office.  
**Program Includes:** Level 1 Handbook and Teacher’s Guide with lessons in each chapter. (You can do as many or as few chapters as you like.)  
**Teacher Provides:** Any plants, soil, etc. needed, a safe learning environment and careful daily observation.

---

Reading Makes Cents

**Audience:** Grands 2-5  
**Cost:** None  
**Delivery Method:** Extension Staff will deliver the material to your school office.

**Objective:** Students will learn about money concepts through selected children’s literature readings and hands on learning activities. Take home evaluations & family activity pages in English & Spanish are included. This curriculum is especially designed for school and after-school settings.

**Program Includes:** Lesson plan book. Lessons include money history, managing, earning, spending, investing, sharing, borrowing & learning.

**Teacher Provides:** Handouts, Materials & supplies for learning activities & Access to literature selections.

**Offered:** September - May

Frequently Asked Questions
What is School Enrichment?
K-State Research and Extension offers a number of in-class programs for teachers & students.

How do I schedule a program?
Fill out and return the request form to the Meadowlark Extension District - Holton office.

What if I need to reschedule?
Contact Cara (carar@ksu.edu) at the Holton office and we will do our best to accommodate your request.

Can I suggest topics for School Enrichment programs?
Yes, send us an e-mail at carar@ksu.edu and let us know how we can enhance your curriculum.

Please reserve dates early, as our ability to offer these activities are limited!
