

Journey Through Mars and Music
August 4th-5th 1:00-2:30 PM
@Oskaloosa Public Library

Students will learn about the geography of mars, what it takes to be able to grow their own food on mars, and create their own rover to navigate the obstacle course of the martian surface.

Students will also learn about music and the mind - why songs make us feel a certain way, interpreting what a song is trying to tell us, understanding how our brains react to music, and the importance of song... and dance!

KANSAS STATE
UNIVERSITY

Extension
Meadowlark District

This institution is committed to providing equal opportunity for participation in all programs, services, and activities. Program information may be available in languages other than English. Language access requests and reasonable accommodations for persons with disabilities, including alternative means for communication (e.g., Braille, large print, and American Sign Language), may be requested by contacting the event contact, Kathryn or Lilith, one week prior to the start of the event (08/28/26) at 785-863-2212 or lkenn@ksu.edu (preferred). Requests received after this date will be honored when it is feasible to do so. Language access services, such as interpretation or translation of vital information, will be provided free of charge to limited English proficient individuals upon request.

Kansas State University is an equal opportunity provider and employer.
